

FUTURE GENERATIONS FUND

In 2016, the Florida United Methodist Foundation launched the Future Generations Fund to partner with churches and ministries in their efforts to help future generations grow in their faith and become disciples committed to transforming the world.

Donations to the fund provide grants to programs and ministries that empower and support children, youth and young adults aged 30 and younger. Those grants are awarded annually in December.

Individuals giving generously make it all possible.

Consider making a donation to the fund and become a valuable partner in helping nurture the next generations of faithful Christians.
